Address: House No.: -384, Sector 63A, Block D, Noida, Uttar Pradesh - 201307

DOB: 07-07-1666

## Objective

Vinay Kumar, As FullStack Java Developer with Techy Knight in India holds Bachelor of Engineering degree in Computer Science. He has 1.5 years of experience in I.T Industry and has worked on various platforms. He has worked during various phases of SDLC such as Requirements and Analysis, Design and Coding. Core areas of skill are design and development using JAVA and J2EE Technology

## Work Experience

Java Development at **Techy Knight:**

Duration: 1.5 Present

- Designed, developed, and maintained scalable Java-based applications, ensuring high performance and reliability.
- Collaborated with cross-functional teams to deliver end-to-end software solutions.
- Implemented core Java concepts, including object-oriented programming (OOP), multithreading, and exception handling, to enhance application efficiency.
- Integrated RESTful APIs and backend services to optimize data flow and improve user experience.
- Debugged and resolved application issues, reducing downtime and enhancing system stability.
- Delivered projects within tight deadlines while maintaining code quality through rigorous testing and documentation.

## Skills

**Technical Skills:** Core Java, Spring Boot, Microservices, Angular, Linux, Python, MySQL, HTML,

**Soft Skills:** Strategic Planning, Leadership, Decision Making, Communication, Team Management, Problem-solving

## Education

Degree: B.Tech

Institution: Budge Budge Institute Of Technology

8.49CGPA

## Projects

1. Inox Movie Ticket Booking System:

**Technologies Used:** HTML, CSS, Bootstrap, React.js, JavaScript

**Description:**

Developed a dynamic and responsive movie ticket booking platform using React.js for seamless interaction and real-time updates.

Designed an intuitive user interface with HTML, CSS, and Bootstrap to provide a visually appealing and user-friendly experience.

Implemented core features such as movie selection, seat booking, and payment integration using React components and JavaScript.

Used Bootstrap to ensure a consistent and responsive design across different devices and screen sizes.

Optimized application performance with React lifecycle methods and efficient state management.

Validated user inputs and enhanced security to ensure a smooth and error-free booking process.

## **.2. E-commerce -Tech Refresh:**

**Client :** FreshDirect

**Technologies :** Java1.8, Spring Boot, Microservice , Hibernate-JPA, W S(Restful), Oracle
